

## Welded Metal Tool Cabinet

CYJY is a professional welded metal tool cabinet manufacturers and suppliers in China, you can rest assured to wholesale and customized welded metal tool cabinet from our factory and we will offer you the best after-sale service and timely delivery.

## Welded Metal Tool Cabinet

The high-quality **welded metal tool cabinet** is carefully manufactured by CYJY. For many years, CYJY has been committed to the production and research and development of various tool cabinets. We have cooperated with many buyers from all over the world, and the **welded metal tool cabinet** has been deeply loved by them. The **welded metal tool cabinet** is compact enough to fit in a corner. The 8 drawers are convenient for storing and classifying tools. The safety lock and the wide working table greatly improve its efficiency. Optional casters allow the working table to move freely. The overall warranty is five years.

## Welded Metal Tool Cabinet Features

- ▶ Sturdy and reliable structure: The **welded metal tool cabinet** is made of high-quality cold-rolled steel plate material, which has extremely high endurance and structural strength, and can withstand a lot of weight and shock. The frame, brackets and worktop are carefully designed to ensure that the entire workbench remains stable and strong during use.
- ▶ Large-capacity storage space: 8 drawers provide a large amount of storage space, which can easily store various tools, materials and parts. The drawers are designed with strong rails, which can withstand a load of 60KG and provide smooth operation and use.
- ▶ Movable casters: Heavy-duty locking casters allow the workbench to move freely, and can be locked at any time to ensure the stability of the workbench.
- ▶ Multi-purpose design: **Welded Metal Tool Cabinet** can be applied to a variety of different work needs. It can be used in operations in industry, manufacturing, design, assembly and various other fields to provide users with a comfortable, efficient and convenient working experience.

## When using the welded metal tool cabinet, you need to pay attention to the following

- ▶ Please place it on a flat ground, and try to avoid unbalanced or unstable placement.
- ▶ Please make sure that the weight and size of the heavy-duty workbench can meet your needs and not exceed its bearing range.
- ▶ Please check whether all drawers and locks are in good condition before use, make sure they are fully closed and locked, and prevent tools, materials, etc. from falling.
- ▶ During use, do not stand on the workbench or between the supporting frames to avoid shaking or collapsing. 5. Please pay attention to avoid damage to the heavy workbench due to excessive load. If you need to carry more weight, please consider upgrading to a larger specification and size.
- ▶ Timely cleaning and maintenance during use to ensure its function and safety performance, improve service life and efficiency

## FAQ
